IMPORTANT INFORMATION ABOUT ASBESTOS IN SCHOOLS

June 1, 2019

This information is provided as partial fulfillment of AHERA (Asbestos Hazard Emergency Response Act) rules requiring annual notification of workers and building occupants or their legal guardians of inspections, response actions, and post response action activities, including periodic re-inspections and surveillance activities that are planned or in progress.

A periodic surveillance of asbestos containing materials is performed in all buildings every six months. This is done to ensure that asbestos containing materials are maintained in good condition. A complete re-inspection of all Ridgeline Montessori Public Charter School buildings will be conducted in the spring of 2021 and will occur every 3 years. The re-inspections are conducted by an AHERA Accredited Inspector. The results of the re-inspection will be included in the AHERA Management Plan. A copy of the AHERA Management Plan is available in the office located at 4500 West Amazon, Eugene, Oregon.

This summer, we anticipate there will be the complete removal of all asbestos containing material in the learning center bathroom floor, located in building B of Ridgeline Montessori Public Charter School.

If you have any questions regarding asbestos or the Ridgeline Montessori Public Charter School’s asbestos program, please call Dan Trent, Facilities Coordinator at 541-681-9662.
